Dear Colleague,

Thank you for taking an interest in our post of Primary/Secondary Trained Teachers at Riverside Bridge School on the new Riverside Campus.

In this letter and the information pack we have tried to detail some of the relevant facts you need in order to make an informed choice about whether to proceed with your application. However, please do not hesitate to contact us at the school if you need any further information. There will be an opportunity for short listed candidates to visit the school and some additional details will be provided at that time if you are called for interview.

The post has arisen following the expansion of the new Free Special School on our Riverside Campus. You would be joining a committed group of school leaders who are continuing to develop the provision and who are determined to develop Riverside Bridge into outstanding school. In particular, this post will be managed by and work closely with the Senior Leadership Team.

Riverside Bridge School provision forms part of a co-located campus of secondary, primary and all age special schools. This post provides an ideal opportunity to work as a member of the Teaching team at a school in an exciting phase of development of a Free School Academy.

Riverside is an Academy Free School with places for over 2000 pupils aged 4-16. The Directors of the Partnership Learning Trust and the Governing Body have a broad range of experience and expertise and are committed to ensuring that the educational needs of all pupils are met. We are looking for exceptional candidates who can assist the Head of School by providing a good quality of teaching to ensure that the provision continues on its' successful journey.

We are looking for enthusiastic motivated individuals to join a supportive team who are committed to raising standards and using innovative ways of enhancing the learning experience of the pupils.

We are keen to attract individuals who can demonstrate an optimistic and aspirational attitude towards our pupils. Although it is desirable that you possess some prior experience of working with pupils with special educational needs, we are also keen for individuals who may not possess all the skills as yet, but could bring to us a positive “can do” approach and we will train you in the appropriate techniques and strategies.

Whilst the duties of a teacher at Riverside Bridge are outlined in our job description, the successful candidate will be specifically responsible for a group of pupils with profound, severe or complex learning disabilities. Some of our pupils may demonstrate challenging behaviour, restricted interests, repetitive and compulsive behaviours, extreme difficulty in communicating and hypersensitivity to sensory stimulation. Candidates must be committed to the education and development of a very special group of pupils

Details of how to apply are provided elsewhere. Please do make sure, however, that your application specifically addresses the requirements of the person specification. We would not wish to miss out on interviewing a good candidate because of simple omissions in the application form.

Thank you, once again, for your interest in this post. We look forward to receiving your application.

Yours sincerely

Anna Hope

Riverside Bridge School

Our motto “Excellence for All” sums up our aims. Riverside Bridge School delivers outcomes significantly above the national average for pupils with special needs on all key measures; we support development of the personal qualities of confidence and resilience essential for a successful life, and support development of the skills and strategies for lifelong learning and independent living within the community.

Riverside Bridge School makes full use of the freedoms its status brings through an innovative and personalised curriculum that suits the needs of all its pupils. The school’s governance arrangements enable fast, flexible decision-making at school level, enabling resources to be used efficiently and effectively to continually raise achievement.

We believe in a provision which provides high quality learning opportunities, teaching and facilities for all, whilst rigorously tailoring learning to meet the distinctive needs of different groups of pupils. Our unified learning campus will ensure pupils are able to achieve their full potential, access the mainstream facilities and experience a wide range of appropriate challenges.

Our curriculum model is distinctive in the offering of three clear pathways, differentiated by the teaching and learning requirements of each of our pupil groups. We believe our three distinct and differentiated pathways offers the best way for:

- achievement to be maximised
- each pupil to have a personalised curriculum appropriate to their needs
- teachers to deliver lessons at an appropriate pace
- expectations and targets to be set and reinforced
- pupils to be challenged and supported at the right level
- a positive learning environment to be nurtured and maintained
- pupils to develop confidence and self-esteem
- pastoral programmes to be appropriately differentiated

The ASC (ASD) Pathway.

At Riverside Bridge School, knowledge about autism and the learning styles of pupils with autistic spectrum conditions informs, and is fundamental to, the development of effective strategies for their teaching and learning. The components of effective teaching and learning for pupils with ASC Riverside Bridge School include:

- teaching informed by the principles of structured teaching (TEACCH)
- high levels of organisation and structure in the physical environment to assist understanding and meaning;
- schedules and work systems to ensure the sequence of daily activities are predictable and understandable;
- visual supports to make individual tasks and curriculum understandable
- programmes based on individualised assessment and the functional level of each pupil with intervention drawing on existing skills and interests;
- emphasis on development of independence.

The PMLD Pathway.

At Riverside Bridge School the complex learning needs of learners with profound and multiple learning difficulties (PMLD) are recognised. In addition to very severe learning difficulties they may have, other significant difficulties, such as physical disabilities, sensory impairment or severe medical conditions are provided for. The components of effective teaching and learning for PMLD pupils at Riverside Bridge Special School include strategies which:

- take account of preferred sensory and learning channels and ways of processing information;
- focus on early communication, cognitive and sensory skills that are the foundation to all future learning and crucial to an improved quality of life;
- support emotional well-being sustained by interactive approaches where learning is contingent on good personal relationships, repetition, familiarity, predictability and sensitivity to feedback from the learner.

The SLD Pathway.

At Riverside Bridge School fundamental to, the development of effective strategies for teaching learners with severe learning difficulties (SLD) is the understanding that they require many of the same teaching principles and strategies relevant to all learners albeit teaching that is more intensive and explicit to accommodate to different patterns and degrees of difficulty in learning. The components of effective teaching and learning for SLD pupils at Riverside Bridge School include strategies which offer:

- more experience in generalising knowledge learnt in one context to other contexts
- more examples to learn concepts
- more explicit teaching of learning strategies & reinforcement of them
- more frequent and more specific assessment of learning
- more time to solve problems
- more careful checking for preparedness for the next stage of learning
- more practice to achieve mastery

Extended Provision: before and after school hours

It is envisaged that the school will eventually operate as an 'extended school' for pupils both before and after the school day, with a wide range of extra-curricular activities on offer. It will also be available for wider community use at weekends and during school holidays.

Local groups and organisations will be encouraged to participate in the planning of activities and the wider aspects of the school's life. It is intended that the new school will contribute to community cohesion through its work with local primary schools and community organisations.

The Partnership Learning Trust

The Partnership Learning Trust brings together a range of local partners, including parents from the local community, local primary, secondary and special school Headteachers, Barking and Dagenham College of Further Education, the University of East London, the voluntary sector training provider Lifeline and members of local groups for children and young people with learning and other disabilities.

The Partnership Learning Trust already runs a mainstream, secondary 11-18 free school – Riverside School – on Barking Riverside. Riverside School is currently housed in a primary school building on the former City Farm site on Thames Road, but is expected to move to purpose-built new accommodation off Renwick Road in September 2017. In addition the co-located primary school will also form part of the unified learning campus.

In its work in Barking and Dagenham, The Partnership Learning Trust is:

- Focused on improving the educational opportunities and life chances of the young people of the London Borough of Barking and Dagenham
- Committed to working as a full member of Barking and Dagenham's existing family of schools and in partnership with the Local Authority
- Committed to providing a high quality range of flagship educational provisions to enable families to access mainstream and special education for all ages in their own local community.

The London Borough of Barking and Dagenham has one of the fastest-growing school-age populations in the country: overall pupil numbers in the Borough are set to rise by 50% between 2014 and 2020. Based on student numbers already in primary schools, there will be a need for the equivalent of four new 10 form-entry secondary schools in the Borough within the next seven years.

For some years, parents of pupils with complex special needs living in the borough have had difficulty securing places at Trinity School, the existing over-subscribed special school in the Borough. This difficulty is being further exacerbated by the rapidly growing population.

The Partnership Learning Trust responded to this local need by submitting an application to the Department for Education in January 2013 to establish a special Free school – Riverside Bridge Special School – on Barking Riverside, offering families an inclusive, accessible, all-through learning pathway for children growing up in Thames View, Riverside and the wider area of Barking & Dagenham.

Riverside Bridge School will eventually cater for around 170 pupils aged 4-16 years and offer targeted support for pupils where there is an Education, Health and Care Plan (EHC) and needs arising from severe/profound learning difficulties and severe learning difficulties with autistic spectrum disorder. There will be extended opportunities for lifelong learning and personal development through wide-ranging community provision, dual use of facilities and direct links to enhanced opportunities in further and higher education and employment.

Ten key facts about the area.

1. Barking and Dagenham is home to 60,000 children and young people, 31% of the total population of 194,000.
2. The area is experiencing one of the fastest rising birth rates in the country. In September 2013, one thousand more children entered Reception than left Year 6 to go to secondary school. Forecasts indicate that the combined primary and secondary populations (Year R to Year 11) will grow by around 10,000 over the coming four years to 2017/18.
3. 50% of all primary aged children and 37% of all pupils at secondary school in Barking and Dagenham do not hold English as a first language. The average for England is 19% and 14% respectively.
4. Approximately one in three children in Barking and Dagenham is born into poverty, higher than the national average of one in five. Levels of child poverty are the eighth highest in the country.
5. There are 44 primary phase schools, 10 secondary schools, one special school and one pupil referral unit in Barking and Dagenham. Two primary schools and one secondary are Academies, two are Free Schools, one is a primary which will become an all-through school, and the other secondary, with approval to open a new special school.
6. There are nine maintained schools and one secondary Academy with sixth forms, (including one special school), one further education college, a Technical Skills Academy and one adult college.
7. Barking and Dagenham is ranked 90 out of 152 local authorities for attainment at age 11 and 84 out of 151 at age 16. (2013 performance)
8. 68% of Disadvantaged* pupils and 81% of Other** pupils in Barking and Dagenham achieved the expected level in reading, writing and math's at age 11, compared with 63% and 81% nationally for each group. - deterring prospective applicants who are unsuitable for work with children or young people;

- making sure all appropriate checks are carried out on new staff who work with pupils, including references, qualifications, Disclosure and Barring Service (DBS) and Barred List (formerly List 99) checks.
