# SPIRITUAL, MORAL, SOCIAL AND CULTURAL DEVELOPMENT

#### 1.0 INTRODUCTION

SMSC development is about how pupils make sense of the world and other people; how they interact with other people; and the sort of person they are and are becoming.

SMSC development is as much about how pupils are taught as to what they are taught. It is not something that happens in isolation, but is inextricably linked to and interwoven with everything the school does with respect to the overall ethos and values of the school community.

SMSC development helps children develop personal qualities which are valued in a civilised society. For example, thoughtfulness, honesty, respect for difference, moral principles, independence, self-respect.

At Riverside Bridge School, we strive to create a learning environment which promote respect, diversity and self-awareness and equips all of our pupils with the knowledge, skills, attitudes and British values they will need to succeed in their future lives.

#### 2.0 AIMS OF THE POLICY

- To empower all pupils to be responsible for themselves;
- o To support all pupils to become confident and have a high self-esteem;
- o To ensure all pupils learn to distinguish between right and wrong;
- o To support all pupils to articulate their own attitudes and values;
- To ensure all pupils understand and are sensitive to the beliefs, values and ways of life of others;
- o To encourage all pupils to be caring, considerate and compassionate;
- o To teach all pupils how to become skilled in working collaboratively;
- To help all pupils to learn how to reflect on their learning and plan for future development;
- o To empower all pupils to talk about and reflect on their own well-being.

#### 3.0 TEACHING AND LEARNING

Spiritual, moral, social and cultural development does not take place in any one aspect, in isolation of other aspects of school life. As a school, we endeavour to provide a holistic environment, in which pupils can grow and develop spirituality, morally, socially and culturally, and in which positive attitudes and consistency provide pupils with good role models, amongst adults as well as pupils as we expect our older pupils to demonstrate good behaviours and support their younger peers.

We also ensure that British Values are promoted continuously in order to ensure pupils develop an understanding of democracy and the rule of law, and an appreciation for individual liberty, mutual respect and tolerance of different faiths and beliefs in every aspect of their school experience as these values underpin life in British society.

The school encourages safe and sensible behaviours incorporating good manners, consideration, courtesy and respect for others at all times whether within the school or when out and about in the community, whilst encouraging imagination, inspiration and reflection.

The curriculum within each Curriculum Areas of Development provides a wide range of artistic, sporting and cultural opportunities that encourage pupils to work together and use imagination in their learning. Through everyday experiences which may be planned through specific lessons to ensure breadth and depth of learning at an appropriate level but also often arise incidentally, all pupils are required to reflect and empathise with others whilst giving them the confidence to provide their opinions and develop their own viewpoints.

# **Spiritual Development**

Spiritual development involves the growth of their sense of self, their unique potential, their understanding of their strengths and weaknesses, and their will to achieve.

Through spiritual development, all pupils will learn to:
