Dear Parents/Carers,

Riverside Bridge School Trips Programme

Due to the Governments' recent lift in restrictions in the wider community we hope to continue our school trip programme in line with our life skills curriculum for the remainder of the summer term.

Your class teacher may send letters home in the coming weeks with details about trips and activities for your child whether it be crossing the road, supermarket trips or environment walks to the local parks to name a few.

We have been approached by a number of parents about trips to the local swimming pool. At present we are unable to run any swimming trips due to staff at the swimming pool only being able to provide non-contact sessions. As I am sure you will understand given the needs of many of our pupils, additional support may be needed and is required in the swimming pool for safety. Should restrictions continue to be lifted we will review this in the next academic year where applicable to curriculum groups.

We hope you will support us and the development of your child's life skills by supporting any trip proposals.

Kind regards,

Mrs Clark
Assistant Headteacher
