

Our topic this term was 'Starry Night'.

As part of our topic we looked at the story 'Whatever Next!' by Jill Murphy.

The story is about a bear who goes to space!

**HOMEWORK:** For your homework, we would like you to create your own mode of transport to go to space.

You could make a plane, a rocket and be as imaginative as you like! Look at some of the examples above.

Your project is due by Friday 14<sup>th</sup> January 2022.
