

# Paws, Claws and Whiskers

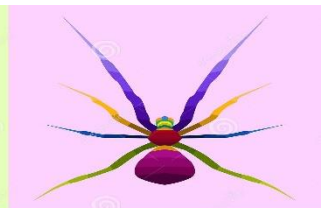

## Half-Term Project

Our topic for this half term is Paws, Claws and Whiskers. These activities are for you to do at home with an adult. You can do all of them or choose the ones that you find most interesting.

Your project is due by **Friday 22<sup>nd</sup> April 2022.**

1. Choose your favourite animal. This could be your pet, an exotic animal, or an animal from the wild. Please write sentences about why this animal is your favourite and describe what it looks like. Create a crafty piece of artwork using paint, natural materials, cotton wool or twigs. Be creative!

2. Learn about an animal by researching facts through the internet or books. Talk about the animal with your adult and ask them their favourite animal. Draw a picture of the animal's natural habitat (where the animal lives). Maybe even take some photos.

3. With adult supervision, can you create an information sheet about your chosen animal.

4. With your adult can you list all the countries that your favourite animal can be found. If you want to challenge yourself further can you write down where the animal first originated from (where your animal was first discovered).
