

As part of our 'Topic Launch – WOW! day we experienced what it was like to play with some of the toys children may have played with in the 1950s. Some of the toys are similar to what we have now and some of them are very different.

In History we have been using common words and phrases relating to the passing of time. We can identify which words or phrase describe the longest time and which words or phrase describes the present day.

In Big Write we have been writing riddles about toys from the 1950's. We included similes and wrote in the 1st person. Can you guess what I am?

I am the shape of a sphere.
I can be small or big.
I am like cat's eyes.
I come in many different colours.
I am made of glass.
You can roll me.
What am I?

In Maths we having been making equal groups and using multiplication. We learnt that we need to have the same amount of items in each group to make them equal.

Please ensure your child has their PE kit and appropriate clothing for the weather.
