April

Welcome to Swan Class!

We have explored what flowers need to grow and have begun investigating what would happen to flowers if we put food colouring in water.

In Music we have been learning the song 'Big Bear Funk'. We have enjoyed listening to different types of music and describing how they make us feel.

A gentle reminder to please bring **PE kits** at the beginning of the week and to bring **both reading books and reading logs** in to school every day!

We have been introduced to our new topic 'Sunshine and sunflowers'. As part of our WOW launch we explored our playground and identified different plants and flowers.

In Maths, we have begun looking at numbers up to 20. We have been practising subtracting numbers within 20.
