

In Big Write we wrote an autobiography. We included a special memory and what we wanted to be when we are older. We also looked at artefacts from the 1950s and researched what life was like in the 1950's. This helped us to write a non-chronological report .

In Geography we have been studying maps from the past and present and identifying similarities and differences and how a particular area has changed.

For our topic launch we got to play with 1950s inspired toys. We had lots of fun!

In Maths we having been learning how to make halves and quarters. Did you know that we need to have two equal parts to make half and four equal parts to make quarters?

Please ensure your child has their PE kit and appropriate clothing for the weather.
