

March

In Maths, we have been practicing one more and one less of a given number.

In our topic, Ready Steady Grow, we have been discussing a range of ways to keep healthy and fit. Exercising, sleeping, drinking water and eating nutritious food. We have been feeding the Hungry Caterpillar with healthy food.

We had lots of fun on World Book Day. We enjoyed story telling in our pyjamas whilst drinking hot chocolate with our friends.

In Literacy/science we have been carrying out observations of our beans. We planted our bean at the start of the week and then wrote an observation daily. By the end of the week our beans had sprouted. Amazing!
