

This month we had our class assembly. We shared what we learnt about the coastline and we even sang a catchy song about the beach! Thanks for coming to watch us.

It was also Spring Art Week this month. This was the year of the orchid. We etched our orchids onto clay and then printed our design onto paper.

This month we celebrated Science Day and in year 2 we were planting plants to see what different soil does to affect them. It was great to see so many parents!

March

We also had the chance to go to the beach. We explored the area Southend-on-the-Sea. We saw the theme park, restaurants and played on the beach.
