

# Misty Mountain, Winding River

This term, our topic has been 'Misty Mountain, Winding River'.

We have been learning all about how rivers and mountains are formed and their various features.

Below are your home learning activities for our topic.

Please choose at least one activity to complete over the holiday.

Choose one famous mountain to learn about using information books and the internet. Write a leaflet about your chosen mountain to record your findings. Include a title, headings, pictures and facts. Once completed, share your work with a family member.

Find out what defines a river, how they form, different types of rivers and their habitats. Choose a topic relating to mountains and create an information poster to record your findings.

Enjoy a riverside or hilltop walk with your family. Before your outing, explore the area using an Ordnance Survey map to examine the contour lines, grid references and other features. When you arrive home, write a diary entry about the day. Include the date, events in chronological order, facts, and your thoughts and feelings.

Create a 3D model of a river using different resources and materials around your home. Try and label the key features in an interesting and creative way.

Your project is due by:  
Friday 1<sup>st</sup> March 2024
