

Ancient Civilisations

This term, our topic has been 'Ancient Civilisations'. We have been learning all about the ancient Sumerian Empire, Mesopotamia and Egypt. Below are your home learning activities for our topic. Please choose at least 1 activity to complete over the holiday.

Your project is due by: Friday 14th June 2024

What did the ancient Sumerians invent, and how did these inventions make work easier and improve everyday life? Use information books and the internet to answer this question. Record information on a mind map. Expand on the information in your mind map by writing a summary to answer the enquiry question.

Use your research skills to find out what an ancient civilisation is. Write a simple definition, then list the characteristics of a civilisation. List the names of some ancient civilisations found from your research.

Compare the ancient Sumerian, ancient Egyptian and the Indus Valley civilisations by finding out what life was like for the people who belonged to them, using a range of sources. Create a table to record your findings and make comparisons. Possible table headings include location, achievements, daily life, other interesting information and end of the civilisation.

Read a book containing ancient Egyptian myths. Choose your favourite myth and retell the story to a family member. Afterwards, illustrate your favourite scene from the story. Write a description beneath your picture to explain what is happening.
