

Let's Explore

This half term we focused on exploring in our topic 'Let's Explore'. We looked at the different things that we have in our community and things that we have in our environment that we share with others around us.

Choose at least **one** of these projects to complete:

Activities:

1. Go outside for a walk and use your senses. Make a list or draw pictures of the things you see, hear, smell and touch on your walk.
2. Gather some items from your local area, and use these to make a collage.
For example, acorns, grass, leaves, conkers, etc.
3. Think of a journey that you make regularly. This could be a journey to school or a trip to the shops. Talk about all the places you pass. Draw a map to show the route you take and the places you see along the way.
